

CITY OF SUSANVILLE GAS RATE REDUCTION

SUSANVILLE CITY COUNCIL APPROVES RATE DECREASE

Effective July 1, 2013, the City Council approved approximately \$100,000 in rate savings to its Natural Gas customers by providing a (\$.06) per therm discount for residential and small commercial users. This will drop the current rate of \$2.20 per therm to \$2.14 and the over 450 therms per month rate from \$2.12 to \$2.06.

This will be the second rate reduction the Council has approved since winter 2010. This will equate to approximately an 18.5% overall saving on your gas utility bill.
